EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: On page 1 of the specification, the first paragraph is replaced with: --This application is a continuation of Serial No. 08/138,634, filed October 15, 1993, US Patent No. 6,000,251, which is a continuation-in-part of Serial No. 08/042,851, filed April 5, 1993, US Patent No. 5,381,685, which a continuation-in-part of Serial No. 08/006,311, filed January 19, 1993 (now abandoned) and a continuation of Serial No. 07/824,964 (now abandoned).--.

The following is an examiner's statement of reasons for allowance: Even though it is well known to provide a removable lock in a ventilation slot, such as in the UK 2234856 reference, and ventilation slots are well known to be of various sizes and shapes, the claiming of the security device with a slot engagement member and an inhibiting member with a portable electronic device including a security slot of about 3mm by about 7mm is patentably distinguished from the conventional ventilation slot. Applicant's Declaration under 37 CFR 1.132 filed on July 05, 2005 has been considered by the examiner, and found to be persuasive in overcoming the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
